Conversion (Fahrenheit to Celsius)
Take the following as input.
Minimum Fahrenheit value
Maximum Fahrenheit value
Step
Print as output the Celsius conversions. Use the formula C = (5/9)(F - 32) E.g. for an input of 0, 100 and 20 the output is
0 -18
20 -6
40 4
60 15
80 26
100 37
